

APPENDIX 3 – INDEX of NDP PART II EVIDENCE BASE

Evidence Base

As set out in §040 of the Government's Planning Practice Guidance (updated 2016), "*While there are prescribed documents that must be submitted with a neighbourhood plan [...] there is no 'tick box' list of evidence required for neighbourhood planning. Proportionate, robust evidence should support the choices made and the approach taken. The evidence should be drawn upon to explain succinctly the intention and rationale of the policies in the draft neighbourhood plan [...].*"

The evidence presented can be in the form of facts and figures e.g. Census data, as well as opinions expressed during consultation with the community and stakeholders. It should be used to support the decisions taken and the policies made during the development of the Neighbourhood Plan.

The following documents have been referred to during the NPWP's development of a draft Neighbourhood Plan for Houghton and provide evidence to support the policies contained in this.
